

CAILL 'N' AUDIO

*Quality stereos built for the outdoor life*

INSTRUCTION MANUAL

MODEL 27 SERIES

# CONGRATULATIONS!

You've just made a purchase that you will not regret! The Model 27 lineup of cooler stereos made by Chill 'N' Audio are the most portable, rugged and best-sounding cooler stereos money can buy. And they're assembled right here in the USA by honest, hardworking Americans!

Whether it's fishing, camping, boating or just chillin' by the bonfire, now you can confidently take great sounding tunes along to all of your outdoor activities – and don't forget the drinks and snacks!

Before you venture out, there are a few things we need to tell you about operation and care so please take a minute now to brush up on the details.

## IN THE BOX

-  *Total awesomeness*
-  *Model 27 cooler stereo and instruction manual*
-  *Integrated BatteryTender® charging system and instruction manuals*
-  *Pyle stereo with remote control and instruction manual*
-  *Warranty registration information*
-  *Cool factor and a superb sense of style!*

## GETTING STARTED

Your Model 27 comes fully charged from the factory. However, if your cooler stereo was sitting on the shelf too long (banish the thought!) the happy little electrons inside the battery could be getting sad and lazy. So before you bring your Model 27 to your first event, be sure to completely charge the battery.

**READ YOUR BATTERYTENDER®  
INSTRUCTION MANUAL BEFORE  
ATTEMPTING TO CHARGE YOUR  
MODEL 27**

## CHARGING THE BATTERY

In our humble opinion, the BatteryTender® charging system is a world renowned super-smart device that knows how to charge and maintain batteries better than any other system.

Simply connect the integrated charging connector to the AC power cord, plug the charging unit into the wall and voilà; watch for the L.E.D. indicator lights to tell you when your battery is fully juiced and ready to go!

Your Model 27 also comes with an additional cord equipped with alligator clips for charging a variety of small 12 Volt batteries. See your BatteryTender® instruction manuals for more information.

**CAUTION: NEVER MODIFY OR  
CHANGE THE CHARGING SYSTEM.  
FIRE, SERIOUS INJURY OR DEATH  
COULD OCCUR**

**CHILL 'N' AUDIO STRONGLY RECOMMENDS THAT YOU DO NOT COMPLETELY DISCHARGE YOUR BATTERY!** Doing this can actually cause the battery voltage to drop below optimum levels resulting in chemical reactions within the battery that could dramatically reduce the lifespan of the battery. This could also cause issues during charging. As a side note, see our CAUTION notice in the MAKING IT WORK section.

# CHARGE AND DISCHARGE TIMES

These times will differ greatly depending on many variables such as listening volume and environmental conditions. Below is a table that can serve as an approximate guide, but is certainly not the end-all be-all.

<b>Stereo Model</b>	<b>Charge Current</b>	<b>Charge Time</b>	<b>Discharge Current</b>	<b>Discharge Time</b>
27 (7Ah)	750mA	9 hours	600- 700mA	5-7 hours
27wx (9Ah)	750mA	12 hours	600- 700mA	6-8 hours
27bt (9Ah)	750mA	12 hours	600- 700mA	6-8 hours

***AVOID PROLONGED PERIODS OF FREEZING TEMPERATURES AS THIS WILL CAUSE DAMAGE TO A FULLY DISCHARGED BATTERY***

For the electronics nerds among us, tons of really great information about battery charging can be found here: <http://batterytender.com/resources/technical-info/>

# MAKING IT WORK

Now that your Model 27 is fully charged, you're ready show off to all your friends!

-  *Turn on the master power switch*
-  *Turn on the radio*
-  *Choose from the radio tuner, .MP3/USB/SD Card audio input(s), Weatherband (27wx) or Bluetooth (27bt)*
-  *Adjust audio settings*
-  *Enjoy!*

Just like this manual, take a moment to read through the factory Pyle instruction manual so you know how to properly operate your new toy. If you get started and something doesn't make sense, odds are, it is in the instructions.

***STATION AND AUDIO SETTINGS  
WILL NOT BE SAVED UNLESS THE  
MASTER POWER REMAINS ON  
BETWEEN USES***

***CAUTION: LEAVING THE MASTER  
POWER SWITCH ON BETWEEN USES  
MAY DRAIN THE BATTERY BELOW  
OPTIMUM LEVELS***

## GENERAL CARE

Like all things in life, that which you take care of will last. Maintaining your stereo is easy and will help you prevent issues down the road. Below are just a few things you can do to ensure your new Model 27 enjoys a long life:

***REGULARLY CLEAN THE UNIT WITH WARM SOAPY WATER AND A DAMP CLOTH. THE USE OF CHEMICALS IS DISCOURAGED***

***CAUTION: THE MODEL 27 IS NOT WATERPROOF! DO NOT SOAK THE UNIT IN WATER AS THIS WILL CAUSE IRREVERSABLE DAMAGE***

Remember, show your Model 27 some love once in a while and it will show you love back. Like a match made in heaven, the two of you will make memories that last a lifetime! Now get out there and have some fun!

**THANKS AGAIN FOR YOUR PURCHASE.  
WE HOPE YOU ENJOY YOUR MODEL 27!**

## OUR PROMISE

We want to be sure that our products have what it takes to stand up to your lifestyle, therefore we manufacture and test all our products to meet the highest quality standards

Our products are assembled in **Zimmerman, MN**  
**USA** of domestic and foreign parts
